February 15, 2017

Dear Doctor,

I am writing in response to your email below.

Please note that Anna Medical College and Research Centre appears in the World Directory of Medical Schools (World Directory) (<https://search.wdoms.org/home/SchoolDetail/F0002796>) you may apply for ECFMG® certification.

Therefore, you will need to read the 2017 Information Booklet that is located on our website <http://www.ecfm.org/>.

After you read the Information Booklet, you may apply for an identification number and password. You may do so by going to our website and clicking on the IWA link (Interactive Web Application) the third option states "If you have never been issued a USMLE®/ECFMG Identification Number and want to request one". Your identification number and password will be e-mailed to you approximately 5 business days at that time you may register for an USMLE exam.

Also, in order to obtain ECFMG certification, you will need to meet the current medical education credential requirements. In order to meet the current medical Education credential requirements you must submit two photocopies of your final medical school diploma and a certified word for word English translation if it is not already in English. ECFMG verifies every applicant's medical school diploma and transcript with the appropriate official of the medical school. You will not fulfill the ECFMG medical education requirements until such verifications are received directly from your medical school and accepted by ECFMG.

In order to meet the current examination requirements for ECFMG certification, you will need to take and pass the USMLE Step 1, Step 2 Clinical Knowledge (CK) and Step 2 Clinical Skills (CS). The examination fees for the USMLE Step 1 and Step 2 CK is \$895 each plus the International Test Delivery Surcharge, if testing outside the United States and Canada, Step 2 CS is \$1,550. Please note you may take these exams in any order. Step 1 and Step 2 CK are offered worldwide at test centers of Prometric. For information on Prometric test centers offering USMLE, visit the Prometric website at [www.prometric.com](http://www.prometric.com). Step 2 CS is administered at test centers in Atlanta, Chicago, Houston, Los Angeles, and Philadelphia in the United States.

Lastly, ECFMG does not recommend any publications by name and/or publisher, or provide information on review courses offered to prepare for the USMLE Steps 1 and 2 examinations. Therefore, we are unable to provide you with a bibliography of books to prepare for the USMLE Steps 1 and 2 examinations. If you have access to a U.S. medical school library, you should be able to locate preparation books there, as the U.S. medical school students also take the USMLE Steps 1 and 2 examinations.

Sincerely,

[info@ecfm.org](mailto:info@ecfm.org)

TNM
